

Hydrological Research Letters

Collection for Early Career Researchers (CECR)

Call for Papers

Hydrological Research Letters (HRL) is an open-access journal published jointly by Japan Society of Hydrology and Water Resources (JSHWR), Japanese Association of Groundwater Hydrology (JAGH), Japanese Association of Hydrological Sciences (JAHS), and Japanese Society of Physical Hydrology (JSPH). HRL is included in the following major databases; Emerging Source Citation Index (ESCI, Web of Science Core Collection), Scopus, Google Scholar Metrics, Directory of Open Access Journals (DOAJ). HRL received its first Journal Impact Factor of 1.1 in June 2023.

HRL calls for young researchers' papers (CECR) as below. We are waiting for many submissions.

Submission period: From Sep. 29th through Nov. 12th, 2023

Submission conditions: The first or corresponding author should be under or equal to 40 years old.

Editorial policy: Judgement within 3 months is guaranteed. The judgement is done by acceptance or rejection (no re-submission).

The total number of CECR submissions (Autumn 2019 — Autumn 2022) was 48. Among them, 24 were accepted, 22 were rejected and 2 were withdrawn. Average peer review period of accepted papers was 77 days and that of rejected papers was 27 days.

How to submit: Submit from the following HRL site and select the post category, Collection for Early Career Researchers.
